

Fireball Ⓟ

Arctotis

Introducing an exceptional new Arctotis offering huge, crimson red flowers up to 8cm in diameter. The near black centre and halo of yellow adds to the intense visual impact this plant presents.

Fireball has the durability, strength and long flowering of Arctotis, with flowers raised above the strong, deep silver green foliage. Flowering from mid winter to late summer, this variety is bound to stand out and get noticed in any garden setting.

Notes from the Ramm Botanicals R&D Team:

- **Brilliant crimson red flowers up to 8cm diameter.**
- Flowering from mid winter through to summer, Fireball is an **ideal winter crop**.
- Versatile, hardy and low growing
- Large flowers above attractive silver-green, lacy foliage, providing great colour contrast in the garden.
- Great for use in the home garden and in commercial applications
- Presents well in a 140mm or 175mm pot.
- Drought tolerant, reliable and suitable for coastal conditions.

Key Information

Release date	July 2017
Height	30cm
Width	45cm
Label supplier	Norwood
Label bundle size	125
Label code	51-4608

TECHNICAL DATA*Arctotis Fireball* ♂

GENUS/SPECIES	<i>arctotis acaulis</i>
VARIETY	Fireball ♂
COMMON NAME	African Daisy
PRODUCED FROM	TC
KEY NOTES/ATTRIBUTES	Hardy, low growing and compact habit. Sensational winter colour that holds true.
HEIGHT	30cm
WIDTH	45cm
HABIT	Compact, mounded growth habit. Perfect groundcover
MAINTENANCE	Pinch once at planting, growth regulators not required
SEASONAL CLIMATE ZONE	Zones 1 to 3
RECOMMENDED POT/PLUG RATIO	1 plug per 140mm or 175mm pot; 2 plugs for baskets
FLOWERING PERIOD	Late autumn to spring, during cooler months
GROWING MEDIA PH RANGE	pH 6.0-6.5
WATERING	Plants will tolerate extended periods of dryness but will flower better if kept moist during dry weather. Can definitely be considered drought tolerant when acclimatised to minimal water once they're planted.
FERTILISER	An application of complete garden fertiliser in spring and again in late summer will help promote strong growth and an abundance of blooms.
PESTS & DISEASES	There are no serious pests or diseases likely to be encountered in the garden.
FINISHING TIMES	In 140mm pot, 12-14 weeks
LIGHT REQUIREMENT	Full Sun

Notes:

Bred in Australia for Australian conditions by NuFlora
