

Geranium Calliope
BIG SERIES

BIG Series
 Geranium

BIG Red

BIG Splash

BIG Burgundy

BIG Pink

BIG Rose

BIG Pink Splash

BIG flowers, BIG colour, BIG impact!

The Geranium BIG series, bred by Syngenta, needs no introduction as it has already taken Australian gardeners by storm. Ramm Botanicals is proud to have this incredible series in our range

The BIG series were developed by crossing zonal (upright) geraniums with ivy (trailing) geraniums. The result? Spectacular, large, semi-double flowers with petals that do not easily shatter. They have an attractive dense foliage and a mounded semi-trailing habit.

Flowering from spring to autumn, the BIG series looks amazing in hanging baskets, large pots and planted in garden beds. Being heat and drought tolerant, these plants perform well in most regions of Australia

- Notes from the Ramm Botanicals R&D Team:**
- Dense, strong foliage
 - Flowering from spring to autumn
 - Heat and drought tolerant
 - Mounded, semi-trailing habit
 - Large, semi-double flowers that don't easily shatter

Key Information

Height	40cm
Width	50cm
Tray size	72 plugs per tray
Price per plug	\$1.48 (+GST)
Label supplier	Norwood
Label bundle size	125
Label code	See over

TECHNICAL DATA	Geranium <i>BIG Series</i>
-----------------------	-----------------------------------

GENUS/SPECIES	<i>geranium calliope</i>
VARIETY	BIG
COMMON NAME	Geranium
PRODUCED FROM	Cuttings
KEY NOTES/ATTRIBUTES	Large, semi-double flowers on a strong, mounded, semi-trailing habit.
HEIGHT	40cm
WIDTH	50cm
HABIT	Mounded, semi-trailing habit
MAINTENANCE	Trim off old stems and shape plant if desired, remove spent flower stems.
SEASONAL CLIMATE ZONE	Most climate zones except arid.
RECOMMENDED POT/PLUG RATIO	1 plug per 140mm pot
FLOWERING PERIOD	Spring through to autumn
GROWING MEDIA PH RANGE	pH 6.0-6.5
WATERING	Will appreciate an extra bit of water in the heat of summer and while flowers are being produced but are quite drought tolerant plants with low water requirements.
FERTILISER	Feed a small amount of complete, controlled release fertiliser in spring and autumn to promote flower formation and good plant health.
PESTS & DISEASES	Seldom attacked by pests, but if aphids appear they can be hosed off with a strong jet of water. Alternatively, apply an appropriate insecticide at the rate recommended by the manufacturer.
FINISHING TIMES	10 to 12 weeks in a 140mm pot.
LIGHT REQUIREMENT	Full Sun

Notes:

From the renowned breeding program of Syngenta

Varieties in the Geranium BIG Series:

- **BIG Red** - 51-3671
- **BIG Rose** - 51-3670
- **BIG Burgundy** - 51-3668
- **BIG Pink** - 51-3666
- **BIG splash** - 51-3667
- **BIG Pink Splash** - 51-4083
