

## LOMANDRA SEASCAPE

Lomandra Seascape offers narrow blue-grey foliage with a graceful weeping habit. You can expect the smell of small, fragrant yellow blooms throughout the warmer months, bringing a faint but sweet aroma.

Seascape is extremely frost hardy and drought tolerant. It's easy to maintain, non-invasive and handles sandy soils. Seascape is extremely popular in modern plantscaping, offering a contrast option with mass plantings of other lomandra, or when planted at the base of native specimen trees.

It's ideal for patio pots, rockeries and borders, and is great for softening harsh edges like retaining walls and paths. Mass plantings give a seaside feel, replicating a rippling ocean surface in the breeze.

### HIGHLIGHTS:

- Blue-grey foliage
- Graceful, weeping habit
- Extremely frost hardy and drought tolerant
- Ideal for pots, borders and mass plantings
- Offers a seaside, ocean feel
- Great for easy care landscaping

<b>Species</b>	<i>Lomandra confertifolia</i> spp. <i>rubiginosa</i>
<b>Common name</b>	Strappy leaf grass
<b>Produced from</b>	Tissue Culture
<b>Tray size</b>	Plugs available from Greenhills
<b>Label code</b>	5-8408
<b>Height/Width</b>	70cm / 50cm
<b>Habit</b>	Weeping habit
<b>Growing pH</b>	pH 6.0 - 6.5
<b>Finishing Times</b>	In 140mm, 8-10 weeks
<b>Pests &amp; Diseases</b>	No major pests or diseases
<b>Position</b>	Full sun/part shade
